CERTIFICATE #10989 - 07/02/2020

THE BONNEVILLE ENVIRONMENTAL FOUNDATION (BEF) HONORS

Brand Geek

For restoring water to critically dewatered rivers and streams by purchasing Water Restoration Certificates® (WRCs) from BEF. Your purchase, combined with that of other BEF partners, helps restore the ecological, recreational and economic health of critical freshwater ecosystems.

All WRC projects are certified by a qualified third party against a strict set of criteria to ensure flow is restored to the environment in locations and at a time that will have optimum environmental benefit. For more information regarding our WRC supply sources, visit: b-e-f.org/water-portfolio.

Todd Reeve | BEF CEO
